

I would appreciate getting to know you better.

Name _____

Name(s) of adult(s) that you live with _____ day phone # _____

Do you have daily access to a computer at home? _____ Internet access? _____

Do you know how to graph using excel or some other spreadsheet/graphing program? _____

The other courses you are taking this semester _____

What is/was the math course you are taking this spring or you took last semester? And with whom? _____

What do you do after school? And can you get to extra help if needed? _____

Why did you choose this particular chemistry course?

What are you passionate about, and why?

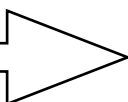

What other interests do you have/do?

Think back on your favorite teacher and tell me what it was about their teaching that made them your favorite.

What else should I know that might help me be a better teacher for you.

More about your science history on the back.

List your science courses since sixth grade:

Grade	Course/Teacher	Comments?
